GENERAL CONDITIONS

ARTICLE 1 - GENERAL PROVISIONS
1.1 In case of a discrepancy or inconsistency in the Plans and Specifications, or between the Plans and Specifications, the matter shall be referred to the Owner for decision and correction before any work is done.

1.2 The exactness of grades, elevations, dimensions, or locations given on any Drawing issued by the Owner, or the work installed by other Contractors, is not guaranteed by the Owner.

Each Contractor shall, therefore, satisfy itself as to the accuracy of all grades, elevations, dimensions, and locations. On all cases of interconnections of proposed work with existing or other work, Contractor shall verify (at the site) dimensions relating to such existing or other work. Any errors due to the Contractor’s failure to so verify all such grades, elevations, locations, or dimensions shall be promptly rectified without extra cost to the Owner.

1.3 In the event the Owner is required to retain an attorney to enforce the provisions of this Contract, if the Contractor is found to be in default, the Contractor shall be required to pay the Owner's reasonable attorney's fees.

ARTICLE 2 – CONTRACT DOCUMENTS
2.1 The Contract Documents comprise the entire agreement between Owner and Contractor concerning the Work. The Contract Documents are complementary: what is called for by one is as binding as if called for by all.

2.2 It is the intent of the Contract Documents to describe a functionally complete Project (or part thereof) to be constructed in accordance with the Contract Documents. Any Work, materials or equipment that may reasonably be inferred from the Contract Documents as being required to produce the intended result shall be supplied whether or not it is specifically called for.

2.3 If any physical condition is uncovered or revealed at the site that differs materially from that indicated, reflected or referred to in the Contract Documents, or that will interfere or cause problems with successful and satisfactory completion of the Work called for by the Contract Documents, the Contractor shall, promptly after becoming aware thereof and before performing any Work in connection therewith, notify the Owner about the problem, and obtain a solution from the Owner prior to continuing with the Work.

ARTICLE 3 - PAYMENTS AND COMPLETION
3.1 The schedule of values shall be prepared in a manner that shows each major portion of the Work as a separate line item of labor and materials. The Contractor shall identify those line items of Work that will be accomplished by subcontractors, and shall identify the subcontractors and material suppliers, and the amounts to come due to
3.2 Requests for payment shall be submitted on the Application for Payment included in these Contract Documents and shall detail the value of the various materials stored on the site and the value of the various types of labor performed.

3.3 Applications for payment shall reflect a retainage of 10%. The percentage amount requested for overhead and profit shall not exceed the percentage of total funds requested for the project.

Each Application for Payment shall be accompanied by partial waivers of lien from all subcontractors and material suppliers in the full amount of their respective portion of the request for payment, and with the Contractors’ own waiver of lien for the full amount of such request for payment.

3.4 FINAL WAIVER OF LIEN

Before final payment is due the Contractor shall submit to the Owner in two copies, final waivers of lien from all subcontractors and material suppliers in the full amount of the subcontract and cost of materials, respectively, along with the Contractor’s final waiver of lien in the full amount of the Contract.

ARTICLE 4 – INSURANCE REQUIRED OF THE CONTRACTOR

The Contractor shall not commence work under the Contract until all the required insurance has been obtained. Certificates of Insurance showing coverage as required to be in effect must be filed with the Owner at the time of entering into the Contract.

The Contractor shall maintain in force the coverage required in this section for the term of the Contract. Also, the Contractor shall not allow any Subcontractor to commence Work on any portion of the Project without evidence that the Subcontractor has insurance coverage equal to the coverage required in this section.

Contractor shall obtain insurance of the types and in the amounts listed below.

4.1 Commercial General and Umbrella Liability Insurance

Contractor shall maintain commercial general liability (CGL) and, if necessary, commercial umbrella insurance with a limit of not less than $2,000,000 each occurrence. If such CGL insurance contains a general aggregate limit, it shall apply separately to this project/location.
CGL insurance shall be written on Insurance Services Office (ISO) occurrence form CG 00 01 10 93, or a substitute form providing equivalent coverage, and shall cover liability arising from premises, operations, independent contractors, products-completed operations, personal injury and advertising injury, and liability assumed under an insured contract (including the tort liability of another assumed in a business contract).

Owner shall be included as an insured under the CGL, using ISO additional insured endorsement CG 20 10 or a substitute providing equivalent coverage, and under the commercial umbrella, if any. This insurance shall apply as primary insurance with respect to any other insurance or self-insurance afforded to Owner. Any insurance or self-insurance maintained by the Owner shall be excess of the Contractor’s insurance and shall not contribute with it.

There shall be no endorsement or modification of the CGL limiting the scope of coverage for liability arising from pollution, explosion, collapse, or underground property damage.

4.2 Continuing Completed Operations Liability Insurance
Contractor shall maintain commercial general liability (CGL) and, if necessary, commercial umbrella liability insurance with a limit of not less than $2,000,000 each occurrence for at least three years following substantial completion of the work.

Continuing CGL insurance shall be written on ISO occurrence form CG 00 01 10 93, or substitute form providing equivalent coverage, and shall, at minimum, cover liability arising from products-completed operations and liability assumed under an insured contract.

Continuing CGL insurance shall have a products-completed operations aggregate of at least two times its each occurrence limit.

Continuing commercial umbrella coverage, if any, shall include liability coverage for damage to the insured’s completed work equivalent to that provided under ISO form CG 00 01.

4.3 Business Auto and Umbrella Liability Insurance
Contractor shall maintain business auto liability and, if necessary, commercial umbrella liability insurance with a limit of not less than $2,000,000 each accident. Such insurance shall cover liability arising out of any auto including owned, hired and non-owned autos.

Business auto insurance shall be written on Insurance Services Office (ISO) form CA 00 01, CA 00 05, CA 00 12, CA 00 20, or a substitute form providing equivalent liability coverage. If necessary, the policy shall be endorsed to provide contractual
liability coverage equivalent to that provided in the 1990 and later editions of CA 00 01.

4.4 **Workers’ Compensation Insurance**
Contractor shall maintain workers’ compensation as required by statute and employers liability insurance. The commercial umbrella and/or employer’s liability limits shall not be less than $1,000,000 each accident for bodily injury by accident or $1,000,000 each employee for bodily injury by disease.

If Owner has not been included as an insured under the CGL using ISO additional insured endorsement CG 20 10 under the Commercial General and Umbrella Liability Insurance required in this Contract, the Contractor waives all rights against Owner and its officers, officials, employees, volunteers and agents for recovery of damages arising out of or incident to the Contractor’s work.

4.5 **General Insurance Provisions**

4.5.1 **Evidence of Insurance**
Prior to beginning work, Contractor shall furnish Owner with a Certificate(s) of Insurance and applicable policy endorsement(s), executed by a duly authorized representative of each insurer, showing compliance with the insurance requirements set forth above.

All certificates shall provide for 30 days’ written notice to Owner prior to the cancellation or material change of any insurance referred to therein. Written notice to Owner shall be by certified mail, return receipt requested.

Failure of Owner to demand such certificate, endorsement or other evidence of full compliance with these insurance requirements or failure of Owner to identify a deficiency from evidence that is provided shall not be construed as a waiver of Contractor’s obligation to maintain such insurance.

Owner shall have the right, but not the obligation, of prohibiting Contractor or any Subcontractor from entering the project site until such certificates or other evidence that insurance has been placed in complete compliance with these requirements is received and approved by Owner.

Failure to maintain the required insurance may result in termination of this Contract at Owner’s option.

With respect to insurance maintained after final payment in compliance with a requirement above, an additional certificate(s) evidencing such coverage shall be promptly provided to Owner whenever requested.

Contractor shall provide certified copies of all insurance policies required above within 10 days of Owner’s written request for said copies.
4.5.2 Acceptability of Insurers

For insurance companies which obtain a rating from A.M. Best, that rating should be no less than A VII using the most recent edition of the A.M. Best’s Key Rating Guide. If the Best’s rating is less than A VII or a Best’s rating is not obtained, the Owner has the right to reject insurance written by an insurer it deems unacceptable.

4.5.3 Cross-Liability Coverage

If Contractor’s liability policies do not contain the standard ISO separation of insureds provision, or a substantially similar clause, they shall be endorsed to provide cross-liability coverage.

4.5.4 Deductibles and Self-Insured Retentions

Any deductibles or self-insured retentions must be declared to the Owner. At the option of the Owner, the Contractor may be asked to eliminate such deductibles or self-insured retentions as respects the Owner, its officers, officials, employees, volunteers and agents or required to procure a bond guaranteeing payment of losses and other related costs including but not limited to investigations, claim administration and defense expenses.

4.5.5 Subcontractors

Contractor shall cause each subcontractor employed by Contractor to purchase and maintain insurance of the type specified above. When requested by the Owner, Contractor shall furnish copies of certificates of insurance evidencing coverage for each subcontractor.

4.6 Indemnification

To the fullest extent permitted by law, the Contractor shall indemnify and hold harmless the Owner and the Architect and their officers, officials, employees, volunteers and agents from and against all claims, damages, losses and expenses, including but not limited to legal fees (attorneys’ and paralegals’ fees and court costs), arising out of or resulting from the performance of the Contractor’s work, provided that any such claim, damage, loss or expense (i) is attributable to bodily injury, sickness, disease or death, or injury to or destruction of tangible property, other than the work itself, including the loss of use resulting there from and (ii) is caused in whole or in part by any wrongful or negligent act or omission of the Contractor, any Subcontractor, anyone directly or indirectly employed by any of them or anyone for whose acts any of them may be liable, except to the extent it is caused in part by a party indemnified hereunder.
