

STRATEGIC PLAN 2020 - 2025

Champaign County Forest Preserve District

INTRODUCTION

Through a series of meetings and discussions beginning in autumn 2018, the Champaign County Forest Preserve District undertook a participatory strategic planning process which included board, staff, and the public. This new five-year plan builds on the work done by the District in 2014 when the 2015-2019 Strategic Plan was developed through an intensive, facilitator-led process.

Strategic planning is an organizational management activity that is used to set priorities, focus energy and resources, ensure that staff and other stakeholders are working toward common goals, and establish agreement around intended outcomes and results. A good strategic plan should serve as a road map that shapes and guides what an organization is, who it serves, what it does, and why it does it, with a focus on the future.

The Forest Preserve District has had a three-pronged mission since it opened its first preserve in 1948, which is to provide for the citizens and guests of Champaign County: 1) the conservation of the county's natural and cultural resources, 2) educational opportunities designed to increase the community's knowledge and appreciation of these resources, and 3) recreational opportunities consistent with conserving the natural qualities of the District's resource base.

Over the years, the District's mission has remained substantially the same. Our goal is still to provide exceptional experiences in nature for our county's residents and visitors. Our six preserves – Homer Lake, Lake of the Woods, Middle Fork River, River Bend, Sangamon River, and the Kickapoo Rail Trail – belong to you, the residents of Champaign County. This plan is our promise to protect them for you to the best of our abilities.
